**BLACK BEARS IN MARYLAND**

Western Maryland (Garrett, Allegany, Washington, and Frederick counties) is home to a healthy black bear population. Accordingly, people may find themselves encountering bears, especially in areas with natural or artificial food sources, such as berry patches, oak groves, or in areas where bait, such as corn, has been left to attract wildlife. If you encounter a bear, DNR recommends that you make your presence known by making noise. Clap your hands and speak with a firm voice to be sure the bear knows you are there. Remain upright and do not run. Back away slowly and leave the area. Although black bears are generally shy and run when

confronted by people, they are wild animals that should be treated with respect.

For people wishing to carry a form of personal protection, DNR recommends the use of **Bear Pepper Spray** as a safe, legal, and effective bear deterrent. It has a long shelf-life, large volume, and is discharged in an expanding cloud that will reach its target up to 35 feet away. There are a variety of Bear Pepper Sprays on the market that can be purchased at local sporting goods stores or on the Internet. When purchasing Bear Pepper Spray, be sure that the product states that it is for use on bears and has been approved by EPA.
